About me

Software engineer with 6+ years of experience in backend development, CI/CD automation, and cloud infrastructure. Skilled in designing scalable applications, optimizing deployment pipelines, and managing cloud-based environments. Certified in Microsoft Azure (AZ-204, AZ-104, AZ-400), with expertise in DevOps, automation, and security best practices.

Education

HUTECH University

07/2014 - 10/2018 | Software Engineering

Skill

Excellent

Github Azure Jenkins Python

Intermediate

Java Spring Boot HTML JavaScript Azure Kubernetes ELK Prometheus Grafana

Work Experience

08/2022 - NOW

DEVOPS ENGINEER | Bosch Global Software Technologies Company Limited

- Design, build, and maintain CI/CD pipelines using Jenkins and GitHub Actions.
- Leverage tools like Terraform to automate the provisioning of cloud infrastructure (Azure).
- Containerize applications with Docker and deploy them using Kubernetes, enhancing scalability and operational efficiency while simplifying service updates and rollbacks.
- Implement comprehensive monitoring solutions with Prometheus and Grafana, and set up centralized logging using the ELK stack, which improves system reliability and enables proactive issue resolution.
- Tech stack: Python, Github action, Azure, Openshift.

08/2020 - 08/2022

JAVA DEVELOPER | Bosch Global Software Technologies Company Limited

- Develop RESTful APIs using Spring Boot to facilitate seamless integration with various client systems.
- Implement security and data protection measures to comply with industry standards and regulations.
- Implement and maintain Jenkins CI/CD pipelines for the entire software cluster, ensuring efficient and reliable software deployment processes.
- Tech stack: Springboot, Angular, Elasticsearch, Kibana, Jenkins, Groovy.

05/2018 - 08/2020

FULL-STACK DEVELOPER | **Bosch Global Software Technologies Company Limited**

- Collaborating directly with customers to understand their specific requirements and business challenges.
- Conducting testing and quality assurance to ensure the application met high standards of performance and reliability.
- Tech stack: HTML, CSS, JavaScript.

Certificate

AZ-400: DevOps Engineer Expert

05/2024 | Microsoft

AZ-204: Azure Developer Associate

08/2023 | Microsoft

AZ-104: Azure Administrator Associate

01/2023 | Microsoft

05/2018 - 08/2020

FULL-STACK DEVELOPER | **Bosch Global Software Technologies Company Limited**

- Collaborating directly with customers to understand their specific requirements and business challenges.
- Conducting testing and quality assurance to ensure the application met high standards of performance and reliability.
